

Dear friends and partners in Christ!

Thank you for being the part of our life and ministry. This semester was both challenging and blessed. It was financially difficult spring which helped us to be creative and teachable. A new big project “European School of Leadership and business” (ESLB) was started and the feedback from parents and kids is very positive. The 11-17 year old kids got intensive trainings on 8 important skills: goal-setting, EQ, conflict management, public speaking, time management, financial literacy, creativity and teamwork. It’s been a very active and busy June for us. And we hope to have more intensive courses in August to have more kids signed up for the year program.

With the support of CEP we were able to buy 6 laptops. They will help us in ESLB’s year program that starts in September. We hope to have a great impact on students signed up for this program as the topics are very important and broad enough for us to be able to share God’s principles and Biblical worldview.

This summer we’ll have 2 camps: kid’s camp July 13-20, teens camp July 20-27. They are full. We have a great team from different churches, enough English native

speakers and about 70 kids in each. In the kids camp we'll talk about emotions in the light of the Bible. Julia Kay together with Anya Slyva have developed a camp program based on "Inside out" cartoon. In the teens camp we'll talk about leadership and Jesus being the best example of team builder, motivator, facilitator, visionary, servant leader and sacrificial love based on the ideas of "Lead like Jesus" book.

We are also thankful to CEP for the opportunity to go to Bratislava, Slovakia and get training in Agathe Training Center. It has helped us to set new goals, work on our budget, visit Narnia and C.S. Lewis school for inspiration, to rest and meet a professional staff of Agathe Training Center.

We ask you to pray for:

campers: safety, spiritual transformation of campers, unity of the team

wisdom, professionalism and love running ESLB courses: they open new opportunities to serve so many kids and parents.

We're looking for sponsors to cover the costs of 4 kids in the camps, a nanny for Masha's daughter in the camp while Masha and her husband are the leaders of the groups and Denys, one of the campers from the previous years to be our helper.

Have a blessed summer!

With Love,

Territory2.2 NGO team.
